To the Trade:

It is again our pleasure to present for your consideration, this 1942 *Trade List*, devoted exclusively to Selected Strains of Flower Seeds—suitable for the most critical Florist Trade.

And this specification, so vitally important to the Florist Grower, is reflected in our seed stocks obtained from only the most reputable growers throughout the World.

It blooms freely from mid-summer to frost and is bright orange in color, flowers are of the "Harmony" type. Very useful for florists and plant growers for raising as pot plants and bedding plants for early summer sales.

NOVELTIES and SPECIALTIES for 1942 (Cont'd)

MARIGOLD DWARF FRENCH DOUBLE HARMONY TYPE "BUTTERBALL" (Bronze Medal A. A. S. 1941.) Butterball is an exquisite little jewel which bears dozens of flowers of a lovely soft butter yellow shade. Much more dwarf and compact in habit than the original Harmony, Butterball might be classed a super dwarf strain in this fine group. Plants are 6-8 in. in height and literally covered with their 2 in. blooms of the characteristic Harmony formation—crested centers composed of dozens of dainty tubular petals, each carrying a touch of maroon at the tip. Remarkably early blooming, Butterball produces a blanket of color for the border or garden bed during the many weeks of summer.

Tr. Pkt.....25c ¼ oz.....45c 1 oz.....\$1.50

Marigold Butterball

NIEREMBERGIA "PURPLE ROBE." (Bronze Medal A. A. S. 1941.) The fading or lack of deep color in the regular strain (*Nierembergia Hippomanica*) is entirely overcome in "Purple Robe" that retains its fairly deep purple shade thruout the summer and does not fade even in the hottest climate. Purple Robe bids fair to become one of the most widely used and universally admired edging or rockery plants.....Tr. Pkt., 50c

New Petunias

PETUNIA ALL-DOUBLE (Victorious) "BRILLIANCY." This new variety improves the popular "World Beauty" with a considerably deeper carmine-rose color and much more dwarf and compact growth and more fully double flowers.

½ Tr. Pkt.....\$1.50 1 Tr. Pkt.....\$2.75

Petunia "Glamour"

PETUNIA GIANTS OF CALIFORNIA "GLAMOUR." (Honorable Mention A. A. S. 1941.) The most striking Petunia ever grown. Outstanding in its beautiful coloring, a luscious shade of **Salmon rose**, delicately veined brown in the creamy open shallow throat. Extremely large blooms, 5-6 in. in diameter, with a shallow open throat surrounded by satiny petals which are heavily ruffled. Order early as seed supplies are low.....Tr. Pkt., \$1.00

PETUNIA "FIRST LADY." (Silver Medal A. A. S. 1940.) The color of this new Bedding Petunia is an attractive light silvery rose, quite unlike any shade in this class. Plants grow uniformly dwarf and compact and are exceptionally free flowering. This variety will be an outstanding one with your discriminating trade.

Tr. Pkt.....50c 1/16 oz.....\$1.75 ¼ oz.....\$3.00

PETUNIA "TOPAZ QUEEN." A very rich, deep brilliant scarlet-rose colored Dwarf Bedding Petunia. Deeper and more outstanding than "Celestial Rose Improved."

PETUNIA "RADIANCE." (Silver Medal A. A. S. 1940.) This new Petunia of the Hybrida type received 97 points by the All America trials, to win a Silver Medal. A brilliant rich rose or cerise color, with brown-veined yellowish throat. It begins to bloom early and profusely, branches nicely, of medium height.....Tr. Pkt., 35c; ¼ oz., \$1.00

PETUNIA "SNOW WHITE." Compact plants covered with dozens of pure white flowers, would really be an unimaginative description of **Snow White**. Its habit is very dwarf and each plant is a mass of large yellow throated paper white flowers.

Tr. Pkt.....35c ¼ oz.....75c 1 oz.....\$2.50

NOVELTIES and SPECIALTIES for 1942 (Cont'd)

PETUNIA "CREAM STAR." (Silver Medal A. A. S.) One of the most compact and free blooming Petunias; early and true to type. The color is cream, deepening in the throat to golden yellow.....Tr. Pkt., 35c; ¼ oz., \$1.00; ½ oz., \$1.75

PHLOX GIGANTEA "RED GLORY." Here is the brightest color ever seen in Phlox, a brilliant red with a large creamy white eye which seems to intensify the red into an unbelievable sharpness. "Red Glory" is identical in type, habit of growth and size of bloom to the Gigantea Art Shades and the two separate colors, Salmon Glory and Rosy Morn.....Tr. Pkt., 50c

POPPY ORIENTALE "SALMON SHADES." Salmon and salmon-pink tints are a fine new development in this hardy perennial. The vigorous plants reach a height of forty inches, and the magnificent blossoms measure 5-6 in. in diameter. There is a wealth of bloom from spring to late summer.....Tr. Pkt., 25c; ½ oz., \$1.00

VERBENA DWARF COMPACT "RED SENTINEL." An intense bright red, with no eye, a true Dwarf Compact variety. The plants will retain their upright and compact habit throughout the entire blooming season. Height will be from 6-8 inches and each plant should produce from 12-15 fine flowering clusters, consisting of 15-20 florets. Plantings of the Dwarf Compact type Verbenas will not be complete without "Red Sentinel".....Tr. Pkt., 35c; ¼ oz., \$1.50

VERBENA DWARF COMPACT "BLUE SENTINEL." A rich violet blue of the true Dwarf Compact group.....Tr. Pkt. 35c; ¼ oz., 75c; 1 oz., \$2.50

VERBENA DWARF COMPACT "WHITE BALL." Imagine a petite plant growing 6-8 inches high, with a score or more of stiff erect branches each bearing 3-5 heads of 2 in. florets. That is the attractive picture "White Ball" presents when in full bloom. It is the white version of Fireball, Red-and-Blue Sentinel, and a worthy addition to this Dwarf Compact class.
Tr. Pkt.....30c ¼ oz.....75c 1 oz.....\$2.50

ZINNIA DAHLIA FLOWERED "ROYAL PURPLE." (Honorable Mention A. A. S. 1941.) The deep rich reddish-purple tones of "Royal Purple" Zinnia are a charming reminder of the soft velvet of regal robes. This brand-new shade in the Dahlia Flowered class is well named. The extra-large double blooms are about 4 in. in diameter and of excellent form.
Tr. Pkt.....25c ¼ oz.....50c 1 oz.....\$1.50

ZINNIA HOWARD'S NEW GIANT CRESTED MIXED. This new Zinnia is the result of direct reciprocal crosses between the small-flowered Scabiosa flowered class and the Giant Dahlia flowered type. Blooms average from 4-5 in. in diameter, with a full rounded cushiony center surrounded by broad guard petals after the style of a Pyrethrum Roseum. The strain contains almost all known colors and shades of color to be found in Zinnias, magnificent shades of orange, orange-scarlet, yellow, rose, maize and crimson predominate.
Tr. Pkt.....30c ¼ oz.....75c 1 oz.....\$2.50

ZINNIA LILLIPUT "PASTEL MIXTURE." In this mixture are incorporated the very lovely shades of apricot, peach, creamy-yellow, shell-pink, delicate salmon, light rose and orchid which are prime favorites with florists, cutflower growers and those who grow and arrange flowers for the home. Particularly fine for cutting for bouquets in the home. Plants are 12-18 in. high, neat in habit, compact growing and very free blooming, producing flowers about 45 days after seed is sown. CYNOGLOSSUM AMABILE
COMPACTUM "FIRMAMENT"(Awarded Bronze Medal by
"All America" Council)

This is a welcome new dwarf type of Chinese forget-me-not, selected from a mutation out of C. amabile Fairy Blue. Trial reports show it is true and uniform stock. Fifteen to eighteen inches tall and bushy, and of rich blue color, always in garden demand. It should prove the most popular of all cynoglossums. Its growth allows it to be planted with the pink variety, which likewise does not grow so weedy or rank as C. amabile. It is about the easiest thing to grow among flowers and should prove a garden favorite. It can also be used as cut flower material.

MARIGOLD

MARIGOLD EARLY DIXIE SUNRISE

(Award of Merit by "All America" Council)

Some years ago the Land of Dixie gave us Marigold Dixie Sunshine, a very desirable but unfortunately late blooming variety. Now, far from the Land of Dixie, from Canada in the North, the land of the rising sun, comes Marigold Sunrise, an early blooming form of Dixie Sunshine. The flowers are large and ball-shaped, ingeniously composed of dozens of tiny five-petaled florets, gracefully interlocking, daintily fringed in effect. The color is brilliant golden yellow, a ray of dazzling pure beauty. Of particular interest is the fact that Sunrise comes 100% fully double and blooming commences by August 15, assuring its adaptability to any locality. The plants are tall, bushy, heavily covered with the colorful blooms and remain in flower over a long period.

SCABIOSA IMPERIAL GIANTS

"Blue Moon"

Honorable Mention, All-America Council

The flower form of this new Scabiosa is as different from the existent Scabiosa varieties as Dahlia Flowered Zinnia differs from the old Zinnia types. This new type has flowers composed entirely of broad, heavy, wavy petals, eliminating the pincushion center entirely. In other words, the flower is literally fully double. **Blue Moon** is an ideal cutting type, because of the stem length, fully 27" even when field grown, and especially because the large beautifully shaped flowers are a luscious shade of deep lavender blue so hard to find in annual flowers.
